By International News Service  
COLUMBUS, N. M., July 14.—De-  
claring they were men without a  
country and asserting they would  
not return to Arizona to help the  
United States win the war by dig-  
ging copper, the 1300 Industrial  
Workers of the World, banished from  
Bisbee, Ariz., arrived here today from  
Hermanas, N. M., and were placed  
under guard of United States troops.  
The men were placed in a deten-  
tion camp where they were fed by  
camp orderly. They obeyed military  
commands and after disembarking,  
marched to the camp, which formerly  
was occupied by Mexican refugees,  
who accompanied General Pershing's  
expedition out of Mexico.  
Sheriff W. C. Simpson accompan-  
ied the party from Hermanas with a  
strong force of deputies.

Police Helping to  
Win Recruits for  
New L. A. Battery

Every officer in the Los Angeles po-  
lice department today sought recruits  
for a new field battery of picked men  
for early service in France.  
The police became recruiting agents  
at the order of Chief of Police Butler  
following the arrival here of army  
officers from staff headquarters in  
San Francisco.  
It is planned to raise two batteries  
of 400 men in ten days. Enlistment  
headquarters were opened at 749  
South Spring street.  
Chief Butler's orders read: "Do  
your bit by furnishing one man for  
the new Los Angeles battery."

Probe Alleged I. W. W.  
Plots to Burn Calif. Crops

By International News Service  
SAN FRANCISCO, July 14.—At the  
urgent request of the authorities of  
Yolo, Stanislaus, Alameda and other  
counties, Assistant United States At-  
torney Caspar A. Ombaum today is  
conducting an investigation of an al-  
leged I. W. W. conspiracy to destroy  
crops.  
Ombaum says that such acts in time  
of war would be construed as treason,  
and that if burning of crops is at-  
tempted the government will proceed  
against the guilty ones as traitors.  
About a month ago, several large  
fields north of Sacramento were  
burned. Whether this fire was incendi-  
ary or not has not been ascertained.  
In many counties, where the most  
alarm is felt, auxiliary fire companies  
of ranchers and vigilance committees  
have been formed.

They have decided to starve the I.

Tuesday night at the big lawn  
fete to be held in the gardens of the  
home of Mrs. John Robert White in  
Glendale for the benefit of the Y. M.

The Y. M. C. A. has taken over

tertainment, reading and suitable  
barrack quarters for a great many  
American boys in the army.

The garden fete and concert at the

Claims Calif. Must  
Produce Slav Needs

Now is the time for California to  
prepare to produce the things that  
new Russia will need when she be-  
gins reconstruction after the war, ac-  
cording to Prof. Edward Benjamin  
Krehbiel of Stanford University and  
an authority on Russia. Russia must  
pass through a tremendous reaction  
before it can attain a permanent  
democracy, said Prof. Krehbiel.  
Bureaucracy, the bourgeoisie and the  
socialists will engage in factional dis-  
putes until the bourgeoisie or business  
element will triumph and set up a  
lasting government.

Alaska Gov't Land

By International News Service  
SEWARD, Alaska, July 14.—A new  
find of coal on the government rail-  
road here has caused the greatest ex-  
citement in adjacent camps. A four-  
foot seam of coal, eight feet below the  
surface and only thirty feet from the  
main line of the railroad, was found  
at Mile 175, sixteen miles nearer  
Seward than the deposit being de-  
veloped at Chickatooon.

CITY INSPECTS NEW  
RY. TERMINAL PLANS

New railroad terminal plans in-  
volving an expenditure of \$2,000,000  
and designed to simplify the freight  
and passenger questions and to aid  
in the solution of the grade crossing  
problem were being studied today by  
city officials, following a conference  
of railroad officials and councilmen  
at the city hall.

The plans involve a partial con-  
solidation of terminal facilities of  
the Southern Pacific, Salt Lake and  
Pacific Electric lines. The Salt Lake,  
it was proposed, will use the new  
Southern Pacific passenger station,  
and to enter it will build a viaduct  
across the river at about Sixth street.  
In return, the Southern Pacific will  
use this viaduct to enter its passen-  
ger station and also to reach a new  
freight station to be located on the  
Los Angeles Public Market property.

The Pacific Electric, according to  
the arrangement, will also use this  
viaduct across the river to connect  
its lines running from the passenger  
terminal at Sixth and Main streets  
to its private right-of-way north of  
Also street and east of the river. This  
would take practically all the sub-  
urban cars off Main street north of  
First street and enable the installa-  
tion of much quicker service to Pas-  
adena and other northern division  
points.

The plans will be submitted to the  
state railroad commission for ap-  
proval.

BEAUTY DIVORCED  
FROM MINING MAN

Telling Judge Reeve of the sad end-  
ing of her second matrimonial ven-  
ture, Mrs. Neva J. Fielding, one of  
the beauties of the motion picture  
colony at Long Beach, was granted a  
divorce today from John L. Fielding,  
a mining man, now believed to be in  
Denver, Colo.  
She and her husband lived together  
a little more than two years, she  
told the court, after their marriage in  
Golden, Colo., in 1911. In November,  
1913, he left to accept a position in  
another city and was to send for his  
wife at Christmas time, she said.  
That was the last time she heard  
from him, she told the court. For a  
time she was almost destitute and  
was forced to use money paid to her  
by a former husband for the support  
Seward that she alleged.

"Then she came to Los Angeles  
and achieved success in the motion  
picture field, and employed Attorney  
John W. Luter and sued for a divorce.

The victory was complete for the  
republicans.  
Other reports here say that General

about an attack on the forbidden city.

about Peking ready to quell any up-

MAN BEATEN TO  
DEATH AT OWN  
DOORSTEP

Angeleno's Skull Is Crushed by  
Gas Pipe; Finger Print  
Is Clew

His skull crushed by blows struck  
with a three-foot piece of gas pipe,  
John Glavota, 22, of 940 Summit ave-  
nue, was found slain a few yards from  
his home early today.  
One of Glavota's hands was in his  
trouser's pocket and the other  
clutched a cigarette when the body  
was found.  
Detectives were unable to find any  
clue to the slayer with the exception  
of fingerprints on the instrument of  
death.  
Robbery was not the motive for the  
crime. This was made plain when \$25  
was found in Glavota's pockets.

LEAVES FOR HOME

Glavota left a cafe on East First  
street where he was employed at an  
early hour this morning. A few yards  
from his doorstep he was knocked to  
the ground by a blow from behind.  
The slayer evidently hid behind a  
hedge and leaped on his victim,  
crushing his skull with one blow with  
the gas pipe. The gas pipe, blood-  
stained and with a few fingerprints  
distinguishable, was found a few  
inches from the body. Glavota's hat  
was found hanging on a tree. It was  
cut through, showing that the blow  
was dealt from behind.  
Detectives found that Glavota had  
expressed a fear to go home late at  
nights. He had told a friend that he  
had seen a man lurking in the shadow  
of his house.  
As far as the police were able to  
learn, Glavota came here three years  
ago. He had few friends and no  
sweetheart.  
Detectives investigating the crime  
were at first inclined to believe that  
Glavota was slain by a man who mis-  
took his identity. Later, they theo-  
rized that the slaying was the result  
of a trivial quarrel.

DRIVE FOR RECRUITS  
TO AMBULANCE CORPS

Immediately upon receipt of word  
from Washington that every ambu-  
lance corps under the national guard  
would be required to recruit up to  
the maximum war strength, Captain  
Dougal of Ambulance company No. 2  
started a drive for thirty more men.  
This ambulance corps is attached to  
the Seventh regiment, C. N. G.,  
and its headquarters are at the arm-  
ory in Exposition park.

Sergeants Hobday and Lawrence are  
acting as recruiting officers and have  
been active for a week past in urging  
young men to enlist in this branch  
of service. They have spoken from  
theater stages and in many public  
places.  
They reported today that more men  
are needed and the drive will con-  
tinue next week.

Applications to enlist should be  
made on Monday or Thursday even-  
ing at the armory.  
All young men of good physique,  
intelligence and address who are  
over 18 years of age are eligible for  
examination.  
Many features of service in the  
ambulance corps are particularly at-  
tractive, and the opportunity to be  
on the field to save the lives of their  
fellows who are wounded in action  
affords at once the vision of adven-  
ture and calls for deeds of valor.

Keeping Political "Pull"  
Out of Draft Exemptions

Political influences in the working of the draft exemption boards is a peril various journals  
foresee with alarm, and in their support they have no less an authority than the President him-  
self who sounded a note of caution on this point in his proclamation announcing the rules and  
regulations governing the selection of men for service in the national war-army.

In a Washington dispatch to the Socialist New York Call, the charge is made that both Re-  
publicans and Democrats were wrangling for places on the exemption boards "in order that one  
party or the other may have an opportunity to punish their political foes by sending the sons  
to the trenches."

In THE LITERARY DIGEST for this week, July 14th number, the general rules governing  
the selection of men for the national war-army are given, and the note of warning that boards  
shall not be derelict in their duty, is heard from various sources.
